

Waste Solutions Quarry Products Quality Homes

Services for everyday life

The Hills Group is a multi-faceted business that makes a significant contribution to life across Wiltshire and neighbouring counties. With origins in brick making, we have been a part of the local scene and the economy for well over 100 years.

Hills Quarry Products operates quarries across the region producing sand, gravel and stone. The quarries in turn provide the raw material from which the company also manufactures ready-mixed concrete at strategically-located plants.

Hills Waste Solutions manages and minimises waste for customers of all sizes. We do so through a comprehensive network which includes a materials recycling facility, household recycling centres, recycling banks, landfill sites and collection depots. We are committed to the use of new technology in our quest to turn waste into a resource. As the recycling and disposal contractor to Wiltshire County Council, we have helped to establish the county as one of the UK's best performing recyclers of household waste.

Hills Property completes the family with the popular *Hills Homes* brand. Over recent years, we have established a strong reputation for high quality homes on carefully selected sites - from major developments in large towns to smaller ones in rural towns and villages. In addition to our own developments, we are also a successful contract builder.

We are as much a family business as we ever were, with core values which include enjoyment, innovation, honesty and integrity. We have a strong commitment to our employees, customers, suppliers and to local communities as well as to health and safety and to the environment that gives us our living. A long-time supporter of the Wiltshire Wildlife Trust, we have directed over £2 million to the cause of nature. Beyond all else, we care.
