### 'Rubbish' bank holiday turns out OK!

It started as a 'rubbish' August bank holiday Monday for Lesley Seed when, by accident, she disposed of her mobile phone into her rubbish bin. By the time the mistake was realised the rubbish bin had already been emptied and the contents were in the back of a bin lorry, on its way to the disposal site at Lower Compton near Calne.

Lesley said: "I was distraught as my mobile phone contained all my family photographs. Luckily I had installed an app on my phone which helps to locate it. We called the Lower Compton site and the helpful staff there were able to isolate the area where the bin lorry had tipped its load and we set off to begin the search."

Lesley, accompanied by her husband Jonathon and their daughter Libby were met at Lower Compton by Dave Smith, landfill site foreman for Hills Waste Solutions, who provided them with protective clothing before the Seeds together with Dave, his team and the help of a digger machine began looking for the phone.

Jonathon said: "We had a pretty good fix on the location and eventually made the phone emit a loud noise which led us to it – all it had was a cracked screen!"

Dave said: "The fact that Mrs Seed called us so quickly once she realised the phone had gone missing enabled us to identify the lorry and the area where the load of rubbish had been tipped. If it was any later, there is a good chance that the phone would have been on its way to either Slough or Westbury where Wiltshire's waste is sent for conversion into electricity or fuel for energy!"

### ENDS

**Hills Waste Solutions** offers a range of specialist waste management and recycling services to both the public and private sector. It is a dynamic regional business which, while centred on Wiltshire, has stretched its boundaries into neighbouring areas to become one of the region's largest providers of waste solutions. Hills Waste Solutions is a wholly owned subsidiary of The Hills Group Limited, a privately owned family company established in 1900.
