

CONTROL OF POLLUTION ACT 1974

Section 7

Notice of Modification of Waste Disposal Licence Conditions

To Hills Waste Disposal Services
Hills Trading Estate
Kingshill
Swindon
SN1 4NF

Berkshire County Council (hereinafter called "the Authority") having on 8 August 1986 granted you a Waste Disposal Licence relating to landfill at Barton Court, Kintbury (54/12/4/206).

BEING of the opinion that it is necessary for the purpose of ensuring that the activities to which the Licence relates do not cause pollution of water or danger to public health or become seriously detrimental to the amenities of the locality affected by the activities, that the said conditions be modified to the extent shown in the Schedule attached;

HEREBY GIVES YOU NOTICE modifying the said conditions as shown in the Schedule attached.

The modification shall take effect immediately.

In the opinion of the Authority it is necessary for the purpose of preventing pollution of water or danger to public health that Section 10(2) of the Control of Pollution Act 1974 should not apply.

DATED 10th day of January 1992

County Solicitor

(Address of Authority) Department of Highways and Planning, Shire Hall, Shinfield Park, Reading, RG2 9XG.

N.B. The person served with this notice may appeal against the Authority's decision to the Secretary of State within six months, or such longer period as the Secretary of State may allow. (See notes overleaf).

The person on whom this notice is served may also make application to the Secretary of State for a ruling as to whether the Authority has acted reasonably in including the above statement as to the non-application of Section 10(2) of the Act. (See notes overleaf).

SCHEDULE

Condition 1 Delete whole condition
 Substitute the following:

Condition 1 WASTE INTAKE

1.1 For the purpose of this licence only Industrial Wastes as defined in Section 30 of the Control of Pollution Act 1974 and in Schedule 3 of the Collection and Disposal of Waste Regulations 1988 derived from works of construction or demolition including waste arising from work preparatory thereto and consisting of the waste materials listed under Type A below shall be deposited at the site:

Type A:

Material which either does not decompose or decomposes only very slowly. The environmental impact of decomposition is less than, or comparable with, that of topsoil.

- Subsoil
- Topsoil
- Clay, Silt
- Chalk, Gravel, Stone
- Sand (including clean foundry and moulding sand)
- Silica (powdered waste must be double-bagged in polythene)
- Glass, Ceramics
- Brick
- Concrete
- Excavated Road Metal

1.2 The deposit of any of the waste materials listed under Type A above is prohibited if such materials (or any of them) contains waste of the nature described in sub-paragraphs (a) to (i) (or any of them) of this paragraph:

- a) Any category or type of controlled waste not specified above, especially Household and Difficult Waste (except for small amounts of hard asbestos where they are inseparable from any of the waste materials listed under Type A above).
- b) Any waste containing material which has potential to decompose rapidly and to cause pollution if allowed to enter ground or surface water systems, e.g. animal and vegetable matter.
- c) Any sewage or sewage sludge other than sewage sludge deposited onto land for agricultural purposes.
- d) Any clinical waste.
- e) Any liquid waste.
- f) Any waste with a flash point below 40°C.
- g) Any waste which either in itself or in conjunction with any other material already deposited is likely to give rise to danger by fire or explosion or by the release of dangerous fumes or gases.
- h) Any waste subject to the Control of Pollution (Special Waste) Regulations 1980.
- i) Any contaminated soils or materials excavated from sources where contamination may be expected. Soils shall be treated as contaminated if the concentration of any element or compound exceeds the maximum level for agricultural or amenity use as given in DoE 1989 (Use of Sewage Sludge in Agriculture) which incorporates CEC 1986 (Council Directive on the Protection of the Environment and in particular Soil) and DoE ICRCL 1983 (Guidance of the Assessment and Redevelopment of Contaminated Land).

1.3 The daily intake of waste to be deposited shall be limited to such quantities as can be managed readily by the personnel, plant and machinery available at the time to comply with the operational procedures. No deposits of waste shall be made at the site when it is unmanned.

Condition 4 Delete sub conditions 4.8 and 4.16.

Delete 2nd sentence of sub condition 4.20.
