

NEWS RELEASE – 1 September 2011

Planning permission granted for temporary recycling facility in Calne

Hills Waste Solutions is pleased that its application to convert an existing warehouse on the Porte Marsh Industrial Estate in Calne has been approved albeit with conditions.

This facility will be used to handle the new cardboard and plastic kerbside collections which Wiltshire Council is rolling out in the autumn. The material will be baled at the facility and then transported on for recycling.

Hills will now start immediately on work to make sure the building can be up and running in time for Wiltshire Council's changes to its kerbside collection of recycling.

The permission is for a temporary period of only three years until proposed new facilities at Lower Compton become fully operational. That is subject to a separate planning application.

For further information on the application see: <http://www.hills-group.co.uk/consult/portemarsh.html>
