## **STATEMENT**

### **Disposal of waste following fire at Averies, Swindon**

Hills Waste Solutions has been contacted by Swindon Borough Council and the Environment Agency to provide a solution for the disposal of the waste material from the Averies site in Marshgate, Swindon.

Hills, in common with other reputable waste treatment operators in the region, has commercial facilities that can safely process and dispose of waste material. At this stage we are unable to say which facility would be used if Hills were to undertake this work.
