

## PRESS RELEASE

April 2015

### Newport Paper secures newspaper & magazine contract with Hills Waste Solutions

Newport Paper, a specialist purchaser and recycler of recovered materials has secured the contract for newspapers and magazines from Hills Waste Solutions.

The recyclate, estimated to be in the region of 12,000 tonnes per year, will come from Hills' contract with Wiltshire Council and is made up of material from kerbside collections, household recycling centres and paper banks.

Newport Paper secured the contract based on its ability to offer strong service levels to along with a minimum price guarantee in conjunction with a long term contract.

The recyclate material will be sent to the Stora Enso Langerbrugge Mill in Belgium which is one of Europe's largest newsprint reprocessors.

Matthew Hoare, managing director of Newport Paper, said:

"With uncertainty in the paper market caused by the closure of Aylesford Newsprint and the reduction in input tonnages at UPM Shotton, Newport Paper's strong relationship with UK and European reprocessors means we can guarantee all of the contracts we have with local authorities and waste management companies. In fact, we are still looking for additional supplies of good quality clean newspapers and magazines and mixed papers in the UK." END

**Hills Waste Solutions** is a dynamic regional business which, while centred on Wiltshire, has stretched its boundaries into neighbouring areas to become one of the region's largest providers of waste solutions. Hills Waste Solutions is a wholly owned subsidiary of The Hills Group Limited, a privately owned family company established in 1900.
