

Fire incident at Lower Compton landfill site

Update: Friday 20 April – 4.00pm

A meeting between Hills, regulators and the Fire Service this afternoon at the Lower Compton landfill has concluded that the situation on site is greatly improved.

There is no longer any smoke moving off site and as a result the advice provided by the authorities for local residents to keep their windows and doors shut is no longer in force.

Clay placement on the isolated pockets of smouldering material continues and one crew from the Fire Service will remain on site as a watching brief overnight.

Sincere thanks are extended to all employees who have worked extremely hard to manage this situation and to the Fire Service for their assistance.

ENDS
