

## Rail depot manager (Royal Wootton Bassett)

**Hills Quarry Products Ltd requires a rail depot manager to join the company, at our new rail depot operation in Royal Wootton Bassett.**

Reporting to the quarry operations manager, the main purpose of the role is to ensure that all operational areas are safe for employees to carry out their daily tasks and that the entire site complies with the company's health & safety policy and current legislation. Additionally, the role involves maintaining a high standard of trackside safety and security and liaising with the sales department and relevant organisations, to ensure that trains and products are ordered in time to meet requirements.

Key responsibilities of the rail depot manager also include:

- Overseeing all aspects of the day to day running of the depot
- To carry out daily stock checks and liaise with the sales department
- To operate fixed and mobile plant
- Carry out or schedule repairs and maintenance on fixed and mobile plant
- To monitor all types of discharge from the site to comply with the company's environmental procedures

The role involves maintaining communication with the Hills Quarry Products' sales department, to ensure customer requirements are met. Reporting on stock levels, additional orders and shortfalls will be required and the forwarding of batch tickets, tonnages and documentation to the sales office.

Successful candidates will have previous experience of rail operations, hold a mobile plant operator's qualification and have knowledge of weighbridge operations. They will be able to lead a team, be computer literate and have a mechanical aptitude. An understanding of quality control and of stock management and control would be advantageous.
