

**NEWS RELEASE – 08 OCTOBER 2019**

## **Hills Quarry Products has reached a milestone!**

Hills Quarry Products' supply of ready mixed concrete has grown from strength to strength since it started in 2005. With five concrete plants supplying over 1,000 customers across central and southern England, Hills has reached the fantastic milestone of producing over **1.5 million cubic metres** of ready mixed concrete for a wide variety of commercial and domestic applications and uses.

This amount is the equivalent of the construction of 16 Wembley Stadium's, four and a half Burj Khalifa towers or the volume of 600 Olympic size swimming pools.

The 1,500,000th cubic metre was delivered in October 2019 to a residential building site near Wantage, Oxfordshire for its long-standing customer, Conlon.

Chris Lambert, senior buyer at Conlon said: "Hills has supplied ready mixed concrete to Conlon at many different sites since 2005 and has become a highly regarded and preferred supplier. Being able to contact the Hills' concrete plants directly means we can get up to date information and amend orders easily and efficiently."

Peter Andrew, Group director of Hills Quarry Products said: "Selling 1,500,000 m<sup>3</sup> of ready mixed concrete is a fantastic achievement. I would like to thank Conlon and all of our customers, new and old, for their business and support. Hills does a great job fostering longstanding relationships with customers which is underpinned by a high quality service, quality assured products and our ongoing commitment to health and safety."

If you require ready mixed concrete or screed for delivery or collection in Wiltshire and neighbouring counties, visit [www.hills-quarry.co.uk/concrete/](http://www.hills-quarry.co.uk/concrete/) or call us on 01793 714999.

Ready mixed concrete from Hills' Upwood concrete plant being delivered for Conlon to fill house footings in Oxfordshire.
