

Maintenance technician (Electrical), (Westbury)

Hills Waste Solutions Ltd is looking to recruit a maintenance technician at our Northacre Resource Recovery Centre in Westbury.

Reporting to the maintenance manager, they will be responsible for carrying out any maintenance works required, to enable the plant to achieve the requisite level of performance.

This is a diverse role which has a bias towards electrical maintenance and as such, will be responsible for providing (not exhaustively) reactive, condition maintenance, planned preventative maintenance (PPM), diagnosis of problems, installation and testing to a high standard. The role will include the need to perform tasks outside of the electrical field, therefore an understanding of mechanical maintenance is essential. The role will also include the co-ordination of small works and the supervision of contractors.

Responsibilities of the role include:

- Carry out all planned preventative maintenance (PPM), reactive maintenance (RM), condition maintenance (CM), and statutory inspections as directed, on all electrical installations, plant, machinery and equipment
- Further develop preventative, planned and conditional maintenance, to maximise efficiency and ensure both downtime and costs are minimised, as far as possible
- To complete calibrations on all instrumentation and maintain up to date records
- Attend and fault find issues on all electrical systems
- Prepare suitable risk assessments and method statements prior to undertaking any work and document in full, to ensure safe working practice
- To work in conjunction with mechanical biased technicians, assisting with mechanical maintenance
- Participate in an emergency call out service on a rota basis
- Where required supervise, coordinate and manage sub-contractors for all maintenance provisions including PPM, RM and CM
- Plan and co-ordinate all works to ensure the health, safety and welfare of all site users and to ensure there is no impact on the environment

- Ensure all engineering documentation, records and files are maintained as required.

Skills and abilities:

- Organised and methodical approach to work with excellent organising, planning and time management ability
- Excellent electrical skills and a good working knowledge of mechanical maintenance
- Computer literate with good working knowledge of Microsoft office suite, in particular Excel, Word and Outlook
- Good understanding of health, safety and environmental matters.

Personal characteristics:

The successful candidate will need to have a flexible and enthusiastic approach to change, with a positive 'can do' attitude. They will have the ability to work independently or as a member of a team and will willingly provide support and assistance to others. They will be take responsibility to deliver a consistent quality service and will identify opportunities to improve working practices.

Applicants must have excellent interpersonal and communication skills at all levels, possess a high attention to detail and have the ability to keep good records.

Please email your CV to join@hills-group.co.uk quoting the vacancy reference HGL1209.
