

Maintenance Manager Westbury

A great opportunity has arisen for a Maintenance Manager to join the team, based at our resource recovery centre in Westbury.

Reporting to the Plant Manager, you will manage the existing planned preventative maintenance (PPM) system, and lead a team of technicians, and always drive improvements in maintenance and scheduling.

The ideal candidate will have time served as Maintenance Manager or equivalent, with experience developing and implementing a Planned Preventative Maintenance system and proven experience in managing a team.

Key areas of responsibility

- Develop a high-performing maintenance team with a culture of delivery and continuous improvement through effective leadership and management to deliver operational excellence
- Ensure compliance with all relevant statutory legislation and the internal company Safety, Health and Environmental Standards
- Drive improvements in plant availability and performance, including costs, through the implementation of maintenance best practices across the site
- Own, develop and evolve the maintenance strategy, implementing a common maintenance platform
- The implementation and delivery of maintenance procedures, initiatives and controls across all areas of responsibility
- Liaise between functions to ensure teamwork, consistency, co-ordination and best practice to eliminate losses from poor practices or communication and to expedite learning
- Develop and own annual maintenance budgets
- Manage and further develop the established site maintenance management software system
- To deputise for the Plant Manager in their absence.

Please email your CV to join@hills-group.co.uk or contact Hills on 01793 781199 for an application pack quoting the relevant Vacancy Reference HGL1389.

The Hills group is committed to monitoring and maintaining equal opportunities and welcomes applications from all sections of the community.
