

NEWS RELEASE – 8 November 2023

Hills Quarry Products opens eighth concrete plant

Hills Quarry Products has continued to strengthen its presence in the ready-mixed concrete market by opening its eighth concrete plant.

The new site in Wilmington will provide high-quality concrete and screed to all customers, with product available for collection or delivery using 4m³, 6m³ and 8m³ sized vehicles.

The plant, based near Honiton in Devon, will also be registered with the Quality Scheme for Ready-Mixed Concrete (QSRMC).

Peter Andrew, Group Director Hills Quarry Products, said: “Following the recent opening of our Swindon plant, the Wilmington site will expand our ready-mixed concrete business even further. The new team at Wilmington will be working closely with the concrete team at Woodsford Quarry in Dorset. The plant will offer a wide range of delivery vehicles provided by site owner and franchisee Adrian Clarke.”

Terry Newsham, Commercial Business Manager, Hills Quarry Products, said: “We are delighted to have extended our presence in the South West with our new site near Honiton. The opening of our Wilmington concrete plant will further enhance the level of service we can provide to our customers.”
